Dag Pike's 'Workboats Design & Performance'

Receive the informative work by the late Dag Pike, Master Seaman and one of the most experienced writers and innovators on the subject. This edition is an essential primer that covers all aspects of the commercial application of workboats today.

Webinar Content

Attend live or watch on demand a number of online conferences which welcome expert panels, navigating the waters of the commercial marine industry and the latest developments.

Industry Database

Search our Maritime Journal Industry Database! Our database is a trusted reference source for buyers and specifiers wanting to find equipment and services in the maritime industry.

Legal Consultation/Services

Our partnership is with Lester Aldridge's acclaimed specialist marine law team. LA Marine's lawyers have a wealth of expertise within the industry.

They not only have dedicated specialist marine law solicitors, they also have other service area specialists that focus on closely related areas such the development of ports and marinas.

Financial Consultation/Services

A Maritime Journal membership entitles you to a free financial consultation with Shawbrook Bank's trusted financial advisors. Shawbrook's flexible and dynamic experts have a plethora of knowledge to aid your business' financial needs. Ranging from acquisitions, management buyouts, Employee Ownership Trusts, restructuring and investing for growth. These are pivotal events for any business, and almost always dependent on access to funding.

Insurance Consultation/Services

With access to the UK's leading insurers, A-Plan would be delighted to complete a market review for subscribers, rather than you having to deal with several other brokers to achieve the same outcome. Trades people, boat yards, yacht clubs, commercial vessels, and boat builders – there aren't many risks that they can't cater for.
